## Joy Global expands service products and consumables offerings

LAS VEGAS, Nevada – Joy Global introduced its expanding line of JOY brand service products and consumables today at MINExpo INTERNATIONAL@2016 in Las Vegas.

As the original equipment manufacturer, Joy Global engineered or selected each JOY product to meet the company's exacting application and design standards, ensuring optimal system performance. Some of the new JOY service product offerings include:

- The JoyCut integrated systems solution, involving testing, analysis and ultimately the specification, design and manufacture of the right cutting system for each underground mining application
- P&H Optima dipper model upgrades including the heavy duty Snubrite and roller latch door, which eliminates adjustments between PMs and extends maintenance intervals
- JS Blocksaver Mark I bitholder system, designed for ease of sleeve removal
- P&H Delta Series Heavy Duty shovel crawler shoes with an elongated roller path for better shoe-roller contact and more durability
- Joy Fluids program providing free sampling and analysis to help extend equipment life and lower maintenance costs
- JOY Ground engaging tools (GET) to meet all shovel, mining application and production requirements

Using Genuine JOY products, Joy Global's direct service teams around the world provide world-class service, helping ensure optimal machine performance. The company also offers life cycle management (LCM) contracts to further help customers manage parts inventories and costs.

### **About Joy Global**

Joy Global Inc. is a worldwide leader in high-productivity mining solutions. Through its market-leading surface and underground business segments, the company manufactures and markets equipment and services for the global mining industry from 135 locations in 20 countries.
